

Features

- * Super strong launch capability, the distance can up to 30 meters (25 W) and 20 meters (15 W).
- * Multi-Channel launched by the same unit.
- * With various transmitting power (15 W/25 W) models which can be chosen to configure according to the venue area.
- * Can be fixed installed (deploying universal stent) or using triangle stent installed.
- * Half launch angle: $\pm 22^\circ$.

Specifications

Model	TH-0700HS
Carrier Frequency	1.7~4.0 Mhz
IR Radiation Power Output	15W & 25W two options
Radiation Angle	$\pm 22^\circ$
Radio Frequency Output Impedance	50 Ω
Radio Frequency Input	100-2000mV
Gain Control	AGC
Power Consumption	55W
Power Supply	AC 120V or 220V; 50-60Hz
Working Temp	0°C~40°C
Dimension (WxHxD)	211x450x82mm
Weight	3.8kg
