

Features

- * Exterior appearance designing ergonomic, and compact smoothly.
- * Lightweight receiver coordinate with the using of headphones which allows the users to feel relax and comfortable.
- * The aural reception of each signal paths mutual non-disturbance, providing 12 channels Language to select (rolling cycle).
- * LCD display (with channel selection instructions, signal intensity instructions, power instructions)
- * With electronic volume switches, free to adjust the size (28 grade).
- * With compress function (little noise, no distortion, wide dynamic range).
- * Configurate charge box, receiving unit has the rechargeable function.
- * Receiving unit using the power rechargeable battery, can work for up to 30 hours.
- * The data setted up by the receiving unit can be stored when the power is down.
- * Within the effective range of the infrared emission, it will be unrestrict to increase the number of the receiving unit.
- * Walk freely without the meeting seats restriction , only if within the scope of signal transmission.
- * The battery cover of the receiving unit can be locked.
- * Receiving unit charge with direction.

Specifications

Model	TH-0700HD
Tune Mode	FM
Carrier Frequency	1.7~4.0MHz
Frequency Response	100~14KHz
Postemphasis	75uS
Modulation Degree	± 15 KHz
Distortion	<1 %
S/N Ratio	>55dB
Power Supply	3.1V-5V
Power Consumption	60mW
Frequency Stability	10PPM
Dimension	130x57x22mm
Weight	100g
